13 October 1970

T. G. Meloy:

Optical meas. — 2000 l/mm necessary ?!
Is 1000 max enough ??

Linear travel & orthogonality — to what accuracy

Density — 21 steps of 0.05 increments ~~0.05 to 3.0~~ ~~do two cover?~~ 0.15

Light Source — tough requirement, perhaps unnecessary

~~Intensity meter~~ = should one be included

Interested in perhaps 1 in IAS

Rec'd 2 Feb 72
BBH

January 24, 1972

Dear Bruce:

I am enclosing the remainder of the deliverable items required for the test kit program. These include:

1. Test Kit Manuals (15 copies) 16 Rec'd BBH

2. Final Reports (5 copies)

In addition, I have enclosed ten copies of each data sheet on an 8-1/2 x 11 inch format as per our agreement. Please sign the enclosed forms and return one to me.

In regard to our recent telephone conversation, I will read and evaluate the document on the diopter telescope, review the literature that I have concerning its use, and call you concerning my interpretation. In addition, I might contact Bausch and Lomb and K & E to discuss the instrument with them.

If other questions should arise or if I can help to clarify any procedures for the acceptance testing phase, don't hesitate to call me.

Sincerely,

Ron.

Ron

Encl.
